Recent Projects

UEG

<https://www.unioneducationgroup.com>

This is a UEG is the online course application, this site is developed in Angular. I worked on this project alongside a developer. My role involved communicating with the client to gather and understand all their requirements. I created wireframes and interactive prototypes to ensure the design direction aligned with the client's vision. Once the design was approved, I proceeded with coding using HTML, CSS, and jQuery, making sure the website was fully responsive across all devices.

Responsibilities: Mockup Design, Wireframing, Prototyping, in Figma, html, css, jQuery, responsive

Team Member: 10+

Duration: 2 month

UNP

<https://unp.education>

This is a UNP is the online course application, this site is developed in Angular. I worked on this project alongside a developer. My role involved communicating with the client to gather and understand all their requirements. In this Project i utilized Canva for creating quick mockups, visual content, and presentation materials. It helped in efficiently communicating design concepts to clients during the early stages of the project. Canva's intuitive interface allowed me to rapidly design wireframes, social media assets, and client presentations without compromising on visual quality or brand consistency. ensure the design direction aligned with the client's vision. Once the design was approved, I proceeded with coding using HTML, CSS, and jQuery, making sure the website was fully responsive across all devices.

Responsibilities: Mockup Design (Canva), html, css, jQuery, responsive

Duration: 4 month

Prestaterre

<https://www.prestaterre.eu>

This is a Real Estate website, This site is developed in NextJS. I worked on this project alongside a developer. My role involved communicating with the client to gather and understand all their requirements. In this Project i used Adobe XD tool for designing user interfaces and crafting seamless user experiences. It allowed me to create detailed wireframes, high-fidelity UI designs, and interactive prototypes that effectively communicated user flows and functionality. I leveraged XD's collaboration features to share designs with clients and developers in real-time, ensuring smooth feedback loops and alignment throughout the design process. Once the design was approved, I proceeded with coding using HTML, CSS, and jQuery, making sure the website was fully responsive across all devices.
